

AB Enzymes joins EuropaBio: Individual Enzyme Solutions for Individual Requirements

PRESS RELEASE

Brussels, 14 December 2021 – EuropaBio is pleased to announce that [AB Enzymes](#) has joined the association as a corporate member.

With headquarters in Germany, a manufacturing site in Finland and a global presence in more than 60 countries, AB Enzymes is an industrial biotech company specialized in enzymes and their applications in many markets.

Fueled by strong capabilities in innovation, AB Enzymes develops, produces and markets high value enzyme products for a wide range of food and beverages (from enzymes for baking, fruit juice processing, grains and vegetable oil seed processing, protein processing and modification ...), animal feed, and other industrial applications (pulp and paper, textiles and laundry detergents) for customers worldwide.

EuropaBio Director-General Dr. Claire Skentelbery commented “AB Enzymes is an excellent addition to the EuropaBio community and together we will help to rethink the regulatory approach to fermentation products in the EU, turning it into a science-based, transparent, and predictable regulatory framework”.

Martin Klavs Nielsen, CEO at AB Enzymes, added: “We look forward joining EuropaBio as we believe the bio-industry in Europe needs a strong platform to interact with governments and legislators. We need that to convince our stakeholders that the bio-industry has a lot to offer to its customers – innovative, relevant, sustainable products, at an attractive cost-in-use”.

About EuropaBio

EuropaBio, the European Association for Bioindustries, promotes an innovative and dynamic European biotechnology industry. EuropaBio and its members are committed to the socially responsible use of biotechnology to improve quality of life, to prevent, diagnose, treat and cure diseases, to improve the quality and quantity of food and feedstuffs and to move towards a biobased and zero-waste economy. EuropaBio represents corporate and

associate members across sectors, plus national and regional biotechnology associations which, in turn, represent over 1800 biotech SMEs. Read more about our work at www.europabio.org.
