

EFIB 2022 Start-up Village: applications are open!

NEWS RELEASE

Brussels, 15 June 2022

EuropaBio and local hosts Lithuanian Biotechnology Association, Innovation Agency Lithuania and Go Vilnius are inviting start-ups to [submit their application](#) for participation in the **EFIB 2022 Start-up Village**. Founders of start ups that are active in industrial biotechnology and bioeconomy with a business focus on new bio-based technologies will have a chance to gain a strong visibility to more than 500 EFIB attendees, while having a valuable opportunity for networking and exchange with industry experts, CEOs, policy makers as well as various stakeholders during two days of the Conference.

Participation in the Start-up Village includes:

- Free spot in the Start-up Village and free access to the 1:1 conference partnering
- Free admission for one company representative to EFIB and reduced fee for other company representatives

Start up hour at EFIB

- Selected start up village participants will also have a pitching slot during our dedicated “Start-up Hour” on October 26, 2022

How to apply?

We invite founders to apply for the Start-up Village if they are active in industrial biotechnology and bioeconomy with a business focus on new bio-based technologies, services, or industrial application for the following areas/sectors:

- Food, feed and nutrition
- Flavours and Fragrances
- Bioprocesses and Technologies
- Sustainable Biomaterials

Your application should include a pitch deck (PDF with a max of 25 pages) with the following information:

- Business idea and state of science/technology & development phase of the bio-based solution
- Targeted application area(s)/sector & market volume
- Outlook of the next milestones (3+ years)
- Overview of funding team and management

If you are interested, please [submit your application](#) by **July 15 2022**

About EuropaBio

EuropaBio, the European Association for Bioindustries, promotes an innovative and dynamic European biotechnology industry. EuropaBio and its members are committed to the socially responsible use of biotechnology to improve quality of life; to prevent, diagnose, treat, and cure diseases; to improve the quality and quantity of food and feedstuffs and to move towards a biobased and zero-waste economy. EuropaBio represents corporate and associate members, plus national biotechnology associations and bioregions.
