

Bronkhorst High-Tech joins EuropaBio: Fostering Biomanufacturing Excellence

PRESS RELEASE

Brussels, 10 February 2025 - EuropaBio is proud to announce that Bronkhorst High-Tech has joined the association.

Based in Ruurlo, in the Achterhoek region of the Netherlands, Bronkhorst High-Tech develops and manufactures smart, sustainable and customer-specific low flow instruments and solutions. Thanks to its continuous innovation, the organization is expanding its focus into biomanufacturing, including bioprocessing and bioreactors.

In joining EuropaBio, Bronkhorst High-Tech aims to contribute towards the advancement of biotechnology across Europe by collaborating with other members, sharing insights, and driving innovation in the industry. Its goal is to foster strong partnerships and enable Europe's meaningful progress in biomanufacturing.

Dr. Claire Skentelbery, Director General of EuropaBio commented "the strength of European biotechnology is delivered by an enormously diverse ecosystem and Bronkhorst is a perfect example of how innovation in biomanufacturing builds a competitive industry. They will play a significant role in our advocacy for biotechnology."

Fergus van Beek, Boardmember of Bronkhorst High-Tech commented "We are excited to join EuropaBio in their mission to foster innovation and growth within the biomanufacturing industry. Bronkhorst is making significant investments in the biotechnology sector because we recognize the critical role that reliable and accurate instrumentation plays in the rapidly evolving biotechnology market."

About EuropaBio

EuropaBio, the European Association for Bioindustries, promotes an innovative and dynamic European biotechnology industry. EuropaBio and its members are committed to the socially responsible use of biotechnology to improve quality of life; to prevent, diagnose, treat, and cure diseases; to improve the quality and quantity of food and feedstuffs and to move towards a biobased and zero-waste economy. EuropaBio represents corporate and associate members, plus national biotechnology associations and bioregions. Read more about our work at www.europabio.org.
