

Technovative Solutions Ltd. joins EuropaBio: Advancing AI-Driven and Sustainable Innovation in Biotechnology

PRESS RELEASE

Brussels, 8 May 2026 – EuropaBio is happy to welcome its newest member, Technovative Solutions Ltd.

Founded in 2012, Technovative Solutions Ltd. is a UK-based SME, based in Manchester. It operates at the intersection of biotechnology, materials innovation, and artificial intelligence within the life sciences and pharmaceutical sectors. The company focuses on developing advanced digital solutions, including an AI-based foundation model designed to accelerate material discovery and optimisation. Alongside this, Technovative Solutions Ltd. is advancing material innovations grounded in eco-design principles, with a strong emphasis on sustainability.

The company's technologies aim to enhance traceability, transparency, and regulatory compliance across the pharmaceutical value chain, while enabling more efficient and sustainable approaches to material innovation. By combining AI, materials science, and biotech applications, Technovative Solutions Ltd. is building capabilities in areas such as sustainable biomaterials and digitally enabled R&D, working collaboratively with partners across the life sciences ecosystem.

By joining EuropaBio, Technovative Solutions Ltd. seeks to engage actively with Europe's leading biotechnology community, contribute to policy and regulatory discussions, and stay aligned with scientific and technological developments. As an SME, the company is particularly interested in collaboration opportunities, knowledge exchange, and initiatives that support innovation, sustainability, and growth within European biotech.

Dr. Claire Skentelbery, Director General of EuropaBio, commented: *"Technovative Solutions is the perfect representation of how small innovators create the interface between different technologies, vital for Europe's translation of science into impact. We are delighted to welcome Fahim and the team to EuropaBio and look forward to learning from them."*

Dr. Fahim Chowdhury, CEO at Technovative Solutions Ltd., added: *"We are thrilled to become part of EuropaBio's vibrant community. Technovative Solutions Ltd is committed to accelerating AI-driven, sustainable solution development, and we look forward to working with partners across Europe to turn cutting-edge science into real-world impact."*

About EuropaBio

EuropaBio, the European Association for Bioindustries, promotes an innovative and dynamic European biotechnology industry. EuropaBio and its members are committed to the socially responsible use of biotechnology to improve quality of life; to prevent, diagnose, treat, and cure diseases; to improve the quality and quantity of food and feedstuffs and to move towards a biobased and zero-waste economy. EuropaBio represents corporate and associate members, plus national biotechnology associations and bioregions. Read more about our work at www.europabio.org.
